

# CURRICULUM VITAE – LORENZO DEGLI ESPOSTI, PH. D.

## PERSONAL INFORMATION

Date of birth: 24/01/1992  
Place of birth: Bologna (BO)  
Citizenship: Italian  
E-mail address: lorenzo.degliestosti@istec.cnr.it  
Researcher unique identifier: ORCID: 0000-0002-6596-560X

## SKILLS

**Expert postdoctoral researcher** in the fields of biomaterials, nanomaterials, biomineralization, bioceramics, and in the design and tailoring of inorganic nanoparticles for application in medicine, agriculture, cosmetics, and environment. Current research focus is the development of calcium phosphate nanoparticles functionalized with drugs, organic molecules, and biomolecules (in particular peptides, siRNAs, miRNAs) with tailored physicochemical properties.

### Soft skills:

- Proficient scientific communicator, with several awards for best written and oral presentations.
- Strong knowledge of scientific language and how to present research results, with more than 30 scientific publications over 5 years of research activity – 30% of those as first author.
- Capable of working in international research teams for high-budget interdisciplinary projects.
- Good knowledge of grant proposal writing, with collaboration in preparing national and international grant proposals.

## CURRENT WORK POSITION

November 2019 – current date:

**Post-Doc Research fellow** at the Institute of Science and Technology for Ceramics - National Research Council of Italy (ISTEC-CNR)

**Research Field:** Development of tailored calcium phosphate nanoparticles for application in medicine, agriculture, environment, and industry. Study of biomineralization processes and development of biomimetic materials and nanomaterials. Specialization in inorganic nanomaterials synthesis and characterization, material interaction with drugs, organic molecules, and biomolecules (peptides, siRNAs, miRNAs), crystallography, and vibrational spectroscopy.

Address: Via Granarolo 64, 48018 - Faenza (RA), Italy

Website: [www.istec.cnr.it](http://www.istec.cnr.it)

## PROFESSIONAL AND RESEARCH EXPERIENCE

2021 – current date

**Key personnel of EU “UNAT” project.** Project ID: 101008159. Project Coordinator: Dr. Claude Bernard. Focus: Development of fluorescent carbon dot nanoparticles from biowastes. Description: design of highly-fluorescent carbon dot nanoparticles by thermal treatment of vegetal biowastes.

2020 – current date

**Key personnel of “Stimulation of exosomes from stem cells by engineered calcium phosphate nanoparticles for their use as drug nano-carriers” project, CNR/MoST Agreement (Italy/Taiwan).** Project Coordinator: Dr. Michele Iafisco. Focus: Development of hybrid calcium phosphate/iron oxide nanoparticles for exosome stimulation. Description: design of magnetic core-shell calcium phosphate @ iron oxide nanoparticles with high biocompatibility and cell internalization for the stimulated production of cell exosomes.

2019 – current date

**Key personnel of EuroNanoMed III “RUNNING” project.** Project Coordinator: Dr. Silvio Danese. Focus: Development of calcium phosphate nanoparticles for gut drug delivery of therapeutic siRNAs. Description: design of tailored calcium phosphate nanoparticles functionalized with therapeutic siRNAs for the treatment of Crohn's disease.

2019 – 2020    **Key personnel of “Biocompatible and inhalable antimicrobial-loaded nanoparticles for the counteraction of biofilm formation and antibiotic resistance: towards a potential new therapy for CF related infections.” project of Fondazione per la Ricerca sulla Fibrosi Cistica – Onlus.** Project ID: FFC#20/2018. Project Coordinator: Dr. Maurizio Sanguinetti. Focus: Development of calcium phosphate nanoparticles for drug delivery of antibacterial agents for the treatment of cystic fibrosis. Description: design of tailored calcium phosphate nanoparticles functionalized with therapeutic drugs and peptides for the treatment of cystic fibrosis.

2019              **Visiting Researcher** at Friedrich-Alexander University of Erlangen-Nurnberg. Supervisor: Prof. Aldo R. Boccaccini. Focus: development of calcium phosphate-bioactive glass composite materials for dental remineralization and drug delivery.

2016 – 2019      **Key personnel of European Research and Innovation Staff Exchange “VIVOIMAG” project.** Project ID: 654757. Project Coordinator: Dr. George Loudos. Focus: In vivo study of the fate of calcium phosphate nanoparticles after administration through inhalation and injection. Description: design of tailored calcium phosphate nanoparticles functionalized with radioactive probes for *in vivo* imaging.

2018              **Principal Investigator of synchrotron light SAXS data collection** at ELETTRA synchrotron (Italy). Project ID: 20175403. Focus: In situ, real time study of the crystallization of calcium phosphate nanoparticles in presence of template molecules. Description: real time investigation of the formation of calcium phosphate nanoparticles in presence of template molecules in order to control their physicochemical properties for biomedical application.

2016 – 2019      **Key personnel of industrial R&D project.** New formulations for the development of dental products based on biomimetic calcium phosphate micro-nanoparticles. Company: Curasept a.d.s. s.r.l. (Protocol CNR ISTEC N. 0001434 date 09/05/2016).

2016 – current date

**Key personnel of industrial R&D analyses.** Execution of elemental and physicochemical characterization of ion-doped calcium phosphate products for third parties. Company: Kalichem Italia s.p.a..

- 2016 – 2020 **Key personnel of EU H2020 “CUPIDO” project.** Project ID: 720834. Project Coordinator: Dr. Daniele Catalucci. Focus: Development of calcium phosphate nanoparticles for cardiac drug delivery. Description: design of tailored calcium phosphate nanoparticles functionalized with therapeutic drugs, peptides, and RNAs for the treatment of cardiovascular diseases. Supervision of scale up of the production process up to pre-industrial scale. Collaboration in product design and *in vivo* testing.
- 2016 – 2019 **Ph. D. student** at the Institute of Science and Technology for Ceramics - National Research Council of Italy (ISTEC-CNR). Supervisor: Dr. Michele Iafisco, Dr. Monica Sandri. Focus: Development of calcium phosphate nanoparticles for medicine. Description: design of tailored calcium phosphate nanoparticles functionalized with therapeutic drugs, peptides, and RNAs as well as biologically relevant ions for the treatment of cardiovascular diseases and dental disease. Base research on the physicochemical properties of calcium phosphate nanoparticles, their formation, and how to design tailored nanoparticles.

---

## EDUCATION AND TRAINING

- 2016 – 2019 **Ph. D. in Materials Science and Technology** (XXII cycle), University of Parma.  
Thesis title: *Tailoring Calcium Phosphate Nanoparticles For Medical Applications: A Functional By Design Approach*. Final evaluation: Excellent.  
Additional title of “Doctor Europaeus” for performing the Ph.D. program in an international context.
- 2019 **School and Conference on Analysis of Diffraction Data in Real Space**, Institute Laue-Langevin (ILL).
- 2018 **Summer School on “Scattering Methods applied to Soft Matter”**, University of Montpellier.
- 2017 **Summer School “To.Sca.Lake 2.0”**, Lake Como School of Advances Studies.
- 2014 – 2016 **M. Sc. in Photochemistry and Molecular Materials**, University of Bologna. Final evaluation: 110/110 cum Laude.
- 2011 – 2014 **B. Sc. in Chemistry and Materials Chemistry**, University of Bologna. Final evaluation: 110/110 cum Laude.

---

## LANGUAGE SKILLS

- Italian: Native speaker
- English: Proficient user (C1)

---

## TEACHING EXPERIENCE

- 2015 – 2016 **Teaching Tutor** of B. Sc. in Chemistry and Materials Chemistry, University of Bologna.
- 2014 – 2016 **Didactic laboratory assistant** - part-time collaboration, University of Bologna.
-

## PRIZES AND AWARDS

---

- 2022      **Second place** in the National Competition “Giovedì Scienza” for young researchers.
- 2021      **Special Prize “Elena Benaduce”** for the best research work for health and wellbeing within the National Competition “Giovedì Scienza” for young researchers.
- 2021      **Third place** in the National Competition “Giovedì Scienza” for young researchers.
- 2019      **Best Poster Award** for young researchers at the 30° Congress of the European Society for Biomaterials “ESB2019”.
- 2019      **Mobility grant** by the Trust of Journal of European Ceramic Society (ID: 2019209).
- 2018      **Grant for synchrotron light SAXS data collection** by CERIC consortium (ID: 20175403).
- 2017      **Rotary prize for the best Master's degree** within the School of Science of the University of Bologna.
- 2013 – 2016      **Merit Award of the University of Bologna** for excellent students (4 consequential awards).

## EDITORIAL ACTIVITIES

---

2018 – current date:

**Reviewer for international Journals** as ACS Biomaterials Science & Engineering, Bioactive Materials, Biomaterials Science, Biomimetics, Crystals, Drug Development and Industrial Pharmacy, Journal of Colloid and Interface Science, Materials Letters, Materials, Scientific Reports.

## INVITED ORAL PRESENTATIONS AND CONGRESSES PARTECIPATIONS

---

- 29/08/2019      **Seminar on Research Activity** at Friedrich-Alexander University of Erlangen-Nürnberg. Host: Prof. Aldo R. Boccaccini. Title: “ISTEC CNR Bioceramics and Bio-Hybrid Composites Group: calcium phosphates from nanoparticles to organized hierarchical 3-dimensional scaffolds”
- 04/04/2019      **Invited talk** at “TRACE-2: Tissue Regeneration: Advanced Ceramics and Composites” congress. Host: Prof. Aldo R. Boccaccini, Prof. Rainer Gadow. Title: “Citrate-stabilized amorphous calcium phosphate doped with fluoride ions: a new biomimetic nanomaterial in dentistry”

2017 – current date:

**More than 8 oral presentations and more than 5 poster presentations** at national and international congresses, including the International Bioceramics Conference, International Congress of European Biomaterials society, National Congress of Italian Biomaterials society, National Congress of Italian Chemistry society, and the International “Biomaterials and Novel Technologies for Healthcare” Conference.

## PUBLICATIONS – BIBLIOMETRIC PARAMETERS

---

Number of publications: 36 (10 as first author)

Book Chapters: 2

h-index: 11

Total Citations: 551

## LIST OF PUBLICATIONS IN EXTENSO IN INTERNATIONAL PEER-REVIEWED JOURNALS AND BOOK CHAPTERS

---
